SPECIAL PRAYER needed November 14-29

David and Mihaela hit the road again on Friday for 2 weeks, ministering in several churches in the United States. In their absence, I am in charge of the church and various ministries. I am not alone however; I have a team of capable young leaders that carry the load with me. These periods with the pastors away are always challenging to us. I have to say that God has been so faithful in the past to show up in such awesome ways and allow His goodness to go on parade before us too, again and again. Challenging, stretching, and a bit scary... it's all that, but also exciting to see what God will do in us and through us.

As leader, I am aware that I am stewarding what God has deposited into the church and His people during the last months. But I also believe that exactly because of what has happened these months, the next two weeks can be a time of continuing to advance. Please pray for 1) protection 2) unity 3) following the Spirit's lead 4) continued breakthrough and movement forward.

WAVE AFTER WAVE of Anointed Guests

This autumn was a time of God speaking again and again about wells and springs: time to redig wells that had been filled with debris by the enemy, times of new springs appearing in the dry places, of the water level rising in our lives. During corporate and personal prayer, during sermons, and during ministry times, this was what God spoke to us repeatedly.

We have pressed out to the deep waters with the help of some great men of God ministering to us in wave after wave of life-changing and spirit enabling teaching and prophetic ministry. What a lineup!

Graham Powell, author of *Christian Set Yourself Free* ministered during three evenings of special training for deliverance ministry. I felt that my personal level of spiritual authority increased greatly during these days as I heard the truth taught and witnessed deliverance ministry by this experienced and world renowned leader in this field. September

Bill Norton, David's father and author of *Mantle of Prayer* did a four night series on various types of prayer. I join many others who testified that his teaching and impartation upgraded their prayer lives. There was also a corporate breakthrough where we felt the heavens open. Access to God's manifest presence became easy and many shared that they now *wanted* to pray...even feeling compelled to fast and spend hours in prayer. Early October

Prophetic Conference "Spring Up O Well" with Phil Rich and Bill Norton We consider conference the highlight of our year. This year it did not disappoint! Such a time of soaking-- people

lingered long after meetings ended just to continue in God's tangible presence. Such miracles we saw! Such times of ministry and prayer for each person. The conference ended with burdens removed and fires burning hot in each heart. Such a time of refreshment and rededication. Conference teachings are on our podcast site for a short time and are well worth listening to. Mid October

More miracles!

With all the guests and special meetings going on, we suspended visits to the hospital for four weeks. Those of us that are "regulars" really missed this opportunity to see and be a part of someone's miracle. So we were thrilled to go again yesterday. Our expectation level was high because we felt that with all the impartation and ministry that we had received, "still greater things" could happen. And they did!

My team with Mike and Cory

**One lady had severe pain in her hip that radiated down her leg. As we laid hands on her and prayed, she felt heat coming from our hands. The pain diminished making her much more comfortable. She also accepted Jesus as her Savior.

**Across the room was another lady with an amputated left leg (she was operated on for varicose veins and the incision became so infected they had to remove her leg to save her life). The stump hurt all the time and when we started praying she was in great pain though she had taken a pain pill two hours earlier. Her right foot was also in great pain and she was unable to move her toes. After we prayed for her, she kept poking and prodding the stump unable to believe the pain that she had suffered for years had just disappeared! The soul of her right foot also felt very hot to her and within a few minutes that foot was pain free and she was moving her toes back and forth to her delight. She too accepted Jesus.

** Next to her, another lady had pain in every joint through her body. Her hands were frozen in an open position and she was unable to close her fingers at all. As we prayed she too felt heat and tingling sensations through her hands and up her arms. In addition all the pain left throughout her body. We asked her to try to move her hands...she could move her fingers and could partially close her hands. We prayed specifically for her hands...and then she moved them again. Right before our eyes they got freer and freer. When the first finger touched her palm she was thrilled. Evidently that hadn't happened for a very long time. She accepted Jesus too! I came back to see her after two days and more fingers were touching her palm...I prayed again for complete healing.

ON A MORE PERSONAL NOTE.....

ROMANIAN Citizenship!

I am officially a dual citizen! American and Romanian! I was approved for Romanian citizenship after a long journey on the road of Romanian bureaucracy. On October 21st, I was interviewed. I was tested on my speaking, reading and writing in Romanian. I also had to show a level of proficiency with Romanian history, geography, famous Romanians, structure of the government and of course to know the words to the national anthem. On October 30 I was declared by the government to be officially Romanian! After living 18 years in Romania, applying for citizenship was only a gesture of the commitment I made in my heart many years ago. But now like Ruth, I can say "Your people shall be my people!"

AS FOR ME AND MY HOUSE

Title to my house! My house has changed from being a construction site to a real address! This again was a long journey... paperwork, bureaucracy, backtracking, lawyers, etc. But it is now a done deal! My house is now in my name! And I have the title to prove it!

It's warm in here! My house is officially winterized! I have insulated the exterior walls and just a couple of days ago my heater system was installed. I have heat in the upstairs studio apartment where I am living until the downstairs can be completed. Yippeee! Heat!

FINANCIAL SITUATION

The crisis in the United States is affecting me here too. Giving is down...

I pray like Jehoshaphat (2 Chr 20) "I don't know what to do but my eyes on You!" I am encouraged that God blessed Isaac in spite of the economy being devastated because of a famine. I remind myself of God's ability to provide supernaturally: manna and meat from heaven, water from the rock, oil that never ceased, shoes that did not wear out, a gold coin in the mouth of a fish, a few small fish and loaves that were multiplied. Please pray that I remain in faith and not give in to strategies that come from the flesh (that result in Ishmael's). Also pray with me for God's provision for all my needs. He is more than sufficient!

I'm enjoying living for Jesus in Romania
And I am honored to represent you here

STILL MORE MIRACLES

Dima, Jason and Israel's team

**One lady couldn't close her hands due to severe arthritis. While praying, the bones and joints in her hands and fingers began to pop and move. She suddenly had full movement in both hands!

**Another lady had crippling pain in both knees. Her right knee was worse than the left and the pain and constantly cramping muscles had caused the bone of her leg to bow to the outside. She walked with great difficulty. The bone was actually twisted. As they prayed, they commanded the bone to straighten. And it did! Dima had his hand on her knee and he could feel the bones move under his hand, and everyone in the room could hear the popping as God adjusted all the bones, putting each in its right place.

**Still another lady suffered from an accident she had years ago. A cow kicked the lady and broke her leg. The break had healed badly and she was in constant pain. Dima and his team prayed for her and she felt like something was coming out of her leg and all the pain immediately left. All three of these ladies accepted Jesus.

Andreea and Hannah's team

**A lady had terrible pains and constant burning sensations in her legs due to diabetes. As they prayed she felt a cooling sensation run over her legs and then she was completely comfortable with no pain and no burning sensation.

**A lady with a bad heart felt heat around her heart as Andreea and Hannah prayed.

**A third lady coughed incessantly. She had a sensation in her throat of choking and suffocating. As they prayed her throat soothed and her coughing slowed dramatically.

**Another lady also had leg pains due to diabetes. She watched her roommates healed one by one. When her turn came, she agreed quickly to prayer. After just a couple of minutes Andreea asked how her legs were. She told Andreea they only hurt when she walked. So Andreea had her get up and walk. She walked pain free!

Putting up insulation at my house with my helpers and friends, Andreea and Maya.
